Performance shown for the period through January 20, 2012 reflects performance for CSC Small Cap Value Fund, a series of CNI Charter Funds, the predecessor to Cove Street Capital Small Cap Value Fund ("The Fund"). The Fund has the same portfolio manager and substantially similar investment strategies to the predecessor fund. Returns for periods greater than 1 year are annualized. The Institutional Class commenced operations on October 3, 2001. The performance results for the Institutional Class reflect the performance of the Investor Class shares from September 30, 1998 through October 2, 2001. The Investor Class subsequently closed, effective November 25, 2015.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-866-497-0097.

The gross expense ratio is 1.33%. The Fund imposes a 2.00% redemption fee on shares sold within 60 days of purchase. Performance data does not reflect the redemption fee. If it had, return would be reduced.

Cove Street Capital Small Cap Value Fund — CSCAX

INVESTMENT PHILOSOPHY

The Cove Street Capital Small Cap Value Fund is managed along the classic value tradition of Ben Graham and Warren Buffett which seeks superior long-term performance through the purchase of securities selling at prices materially below our estimate of intrinsic value. This process of “winning by not losing” endeavors to preserve capital from permanent loss (as distinguished from “quotational risk”) and seeks to put us on the correct side of the mathematics of compounding. The Fund is a concentrated portfolio, which allows us to use our best ideas to drive performance. In our view, it is both a fool’s errand as well as disingenuous to clients to over-diversify the results of careful decision-making and attempt to mimic indices to achieve performance. We believe that the way to achieve superior long-term returns is to have the intellectual courage to differ from the mood of the day and the indices to which we are compared.

The fund’s investment objectives, risk, charges and expense must be considered carefully before investing. The statutory prospectus and summary prospectus contain this and other important information about the investment company, and they may be obtained by calling 1-866-497-0097 or visiting www.covestreetfunds.com. Read it carefully before investing. Fund holdings and sector allocations are subject to change and should not be considered a recommendation to buy or sell any security.

THE FUND...

...invests in a universe of small cap companies with less than \$5 billion market cap

...allows up to 20% of its assets to be invested in securities of foreign companies

...has the ability and temperament to hold cash when suitable ideas are not immediately forthcoming

...adviser’s Portfolio Manager and employees are collectively the largest individual shareholder

Mutual fund investing involves risk. Principal loss is possible. There is no assurance that the investment process will consistently lead to successful results. Value investing involves risks and uncertainties and does not guarantee better performance or lower costs than other investment methodologies. Investments in smaller companies involve additional risks such as limited liquidity and greater volatility. Investments in foreign securities involve greater volatility and political, economic, and currency risks and differences in accounting methods.

ABOUT FUND MANAGEMENT
